MEMORANDUM FOR: Director of Security

VIA: Chief, Physical Security Division  
Chief, Physical and Area Security Group  
Deputy Director for Physical and  
Technical Security

FROM:

  
Deputy Chief, Physical Security Division

STAT

SUBJECT: OSPG Meeting - 4 December 1986

1. On 4 December 1986 I attended the monthly meeting of the Overseas Security Policy Group (OSPG) held in Room 1107, Main State. Lou Schwartz presided, and the agenda is attached.

2. Jim Anderson, a well-known contractor, gave the first presentation on "networking." His bottom-line recommendation appeared to be: "Buy 'trusted' computers." I am attaching the three handouts which he distributed. I have already given copies to C/ISSD.

3. With the encouragement of Jerry Rubino from the Department of Justice, the Group voted to set up a working group to prepare a booklet which would furnish unclassified advice regarding foreign TDY travel. The final and OSPG-approved version of the booklet would be printed and distributed among member Agencies to be used in foreign travel briefings for their employees and contractors. I have asked C/OSSB to select one of his officers to attend the working group. I think it is a good idea. The only booklet that our Central Travel Services hands out to travelers is the 1980 State Department publication entitled "Evacuation Plan: "Don't Leave Home Without It." I am attaching a copy of the latter booklet as well as booklets prepared by the Departments of Justice and Treasury. I am also preparing a booklet, hot off the press, which the Department of State printed for the Overseas Security Advisory Council. This booklet is intended for American businesses operating overseas. I have given copies of all these booklets to C/OSSB. If you wish Security Education Staff to become involved in this project, please advise C/OSSB.

4. According to Mark Mulvey, the working group that critiqued Gordon Harvey's Security Program Design book expressed strong feelings that the book needs more work. Mr. Mulvey stated that it is too elementary, does not cover USIA facilities, and presents options which leave no discretion to an RSO. Lou Schwartz declared the that book should not, therefore, be sent out in its current status. Mr. Mulvey also said that he will ask the working group to reconvene sometime next year to re-review it.

5. Regarding the OSPG charter, most members replied that the charter is valid as is. No changes are necessary.

6. Lou Schwartz took a vote, and the count was unanimous that OSPG meetings be scheduled every 2 months rather than once a month. The next meeting, therefore, will be held on 5 February; and there will not be a meeting in January. Most members felt that the extra time between meetings will give a better opportunity for the working groups to meet and tackle problems.

7. The Residential Security Guidelines, which were sent to all members for comment, were also flawed according to some members. Mark Mulvey was directed by Lou Schwartz to set a time and place next week for a working group to look it over and agree on changes. I have alerted C/OSSB that Mulvey will probably call him to ask for a representative.

8. [redacted] the DIA member, asked what the status of the [redacted] apartment project in Hong Kong was. Schwartz asked his Chief of Operations, [redacted] to look into the situation and report back. Both expressed pessimism that anything could be done to prevent the occupation of that apartment house by consulate general personnel and their families.

9. Also handed out at the meeting, was a thick booklet (attached) which gives the current status of implementation of the recommendations made by the Inman Panel.

10. Finally, the Group members expressed their desire for a panel discussion by representatives of the CI elements of State, CIA, FBI, and NSA. The members stated their desire to hear about recent recruitment attempts by hostile intelligence services and defensive briefings which have proven effective.
